Dear Sirs:

The Supervisors of Snow Shoe Township support and recommend that the proposed Interchange on I-80 to access the northern portion of Rush Township be approved and constructed.

It is our understanding that the proposed interchange and the necessary road improvements will be funded entirely by Resource Recovery LLC and that no public funds will be used in this interchange construction. Snow Shoe Township will work with Rush Township to facilitate this road improvement project which will provide access to the Rush Township Industrial Enterprise Zone without adding traffic in Snow Shoe Township or Snow Shoe Borough.

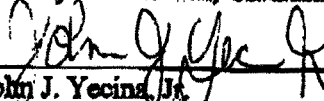

We, therefore, request that the Centre County Metropolitan Planning Organization promptly amend the Centre County Long Range Transportation Plan to incorporate a new I-80 Interchange to accommodate the planned development of the northern portion of Rush Township and that the Centre County MPO then notifies PennDot and the FHWA of their approval of the new point of access.

We thank you for your cooperation with our request.

Sincerely,

SNOW SHOE TOWNSHIP SUPERVISORS

Rodney Presolovich, Chairman

John J. Yecina, Jr.

Francis A. Bosak
