RE: Landfill Permit of Resource Recovery, LLC

Dear Mr. Figured and Mr. Garg:

It is my understanding that you are in the process of evaluating a landfill permit for the above referenced Resource Recovery, LLC. First and foremost, there are multiple reasons the permit should be rejected in its entirety. I am confident that your evaluation of the permit will lead you to that conclusion.

However, I did want to correspond with you about my strong opposition to any consideration of their absurd request that they be granted a twenty year permit, as opposed to the standard ten year permit. As indicated above there are reasons for the permit to be rejected all together, but in no circumstances should you even consider permitting a landfill longer than ten years. Each and every facility of this nature must be required to go through the re-permitting process at least every ten years so that we can maintain adequate controls on those facilities that are permitted.

Very Truly Yours,

Mike
