PHASE II PERMIT APPLICATION**

**RESOURCE RECOVERY LANDFILL  
RUSH TOWNSHIP, PENNSYLVANIA**

**PADEP FORM AND DESCRIPTION**

| <b><u>TAB</u></b> | <b><u>DESCRIPTION</u></b>                                          |
|-------------------|--------------------------------------------------------------------|
| FORM G(A):        | Air Resources Protection, Dust Emissions Estimate and Control Plan |
| FORM G(B):        | Air Resources Protection, NMOC Emissions Estimate and Control Plan |
| FORM H:           | Revegetation                                                       |
| FORM I:           | Soil Erosion and Sedimentation Controls                            |
| FORM J:           | Soils Information                                                  |
| FORM K:           | Gas Management                                                     |
| FORM L:           | Contingency Plan for Emergency Procedures                          |
| FORM Q:           | Request for Equivalency Review (2)                                 |
| FORM R:           | Waste Analysis and Classification Plan                             |
| FORM X:           | Radiation Protection Action Plan                                   |
| FORM 3:           | Map Requirements                                                   |
| FORM 14:          | Operation Plan                                                     |
| FORM 18:          | Water Quality Monitoring System – Phase II                         |
| FORM 24:          | Liner System – Phase II                                            |
| FORM 25:          | Leachate Management – Phase II                                     |
| FORM 28:          | Closure and Bonding Worksheets                                     |

| Attachment 24-2.1A: | Soil Laboratory Test Results Triaxial Strength Testing                                                                    |
| Attachment 24-2.1B: | Soil Laboratory Test Results Compaction Tests                                                                             |
| Attachment 24-2.1C: | Soil Laboratory Test Results Recompacted Permeability                                                                     |
| Attachment 24-2.1D: | Soil Laboratory Test Results Specific Gravity                                                                             |
| Attachment 24-2.1E: | Soil Laboratory Test Results Moisture Content, Sieve Analysis,<br>Atterberg Limits, USCS and USDA Classification          |
| Attachment 24-2.2   | Geosynthetic Laboratory Test Results                                                                                      |
| Attachment 24-2.2A: | Interface Shear Test Results for Specified or Equivalent Products                                                         |
| Attachment 24-2.2B: | Representative Final Cover System Interface Shear and<br>Transmissivity Test Results for Specified or Equivalent Products |

**PERMIT APPLICATION  
RESOURCE RECOVERY LANDFILL  
RUSH TOWNSHIP, CENTRE COUNTY, PENNSYLVANIA**

**TABLE OF CONTENTS  
(continued)**

|                     |                                                           |
|---------------------|-----------------------------------------------------------|
| Attachment 24-2.3:  | MSE Berm Analysis                                         |
| Attachment 24-2.4A: | Veneer Stability Analysis of Liner System                 |
| Attachment 24-2.4B: | Supporting Permeability Test Results for Protective Cover |
| Attachment 24-2.5:  | Final Cover Veneer Stability                              |
| Attachment 24-3:    | Seismic Impact Analysis                                   |
| Attachment 24-4.1:  | Bearing Capacity Analysis of Subbase                      |
| Attachment 24-4.2:  | Subgrade Settlement and Liner Strain Analysis             |
| Attachment 24-5:    | Geosynthetics Properties                                  |
| Attachment 24-6:    | Leachate Compatibility Data                               |
| Attachment 24-7:    | Geomembrane Puncture Resistance Analysis                  |
| Attachment 24-8:    | Liner System Anchor Trench Analysis                       |
| Attachment 24-9.1:  | Leachate Detection Layer Flow Analysis                    |
| Attachment 24-9.2:  | Leachate Detection Swale Flow Capacity                    |
| Attachment 24-10.1: | Leachate Collection Pipe Flow Capacity                    |
| Attachment 24-10.2: | Leachate Collection Pipe Structural Integrity             |
| Attachment 24-10.3: | Leachate Collection Gravel Clogging Analysis              |
| Attachment 24-10.4: | Geotextile Filter Clogging Analysis                       |
| Attachment 24-10.5: | Leachate Collection Pipe Clogging Analysis                |
| Attachment 24-11.1: | Erosion Resistance of Final Cover Soil                    |
| Attachment 24-11.2: | Geocomposite Drainage Layer Evaluation                    |
| Attachment 24-11.3: | Cover System Hydraulic Efficiency                         |
| Attachment 24-12:   | Construction Quality Assurance Plan                       |
| Attachment 24-13:   | Test Boring and Test Pit Logs                             |

**VOLUME 4**

**FORM 25:**

|                  |                                |
|------------------|--------------------------------|
| Attachment 25-1: | Form 25 Narrative Discussion   |
| Attachment 25-2: | Form 25 HELP Runs              |
| Attachment 25-3: | Form 25 Tables                 |
| Attachment 25-4: | Form 25 Sump Pump Calculations |
| Attachment 25-5: | Form 25 Figure 25-1            |

**LEACHATE MANAGEMENT – PHASE II**

**FORM 28:**

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Attachment 28-1:  | Form 28 Narrative Discussion                    |
| Attachment 28-2:  | Post-Closure Inspection Form                    |
| Attachment 28-3:  | Bonding Worksheets – Worst Case                 |
| Attachment 28-3A: | Bonding Worksheets – Initial Operating Scenario |

**CLOSURE AND BONDING WORKSHEETS**
